Assunto: RE: M/V GRAJALES - Rio De Janeiro bunkering Call

Dear Sirs,

Best wishes for a prosperous 2026.

Please be advised that M/V GRAJALES is presently at Vitoria, Brazil, where she is engaged in the discharge of a fertilizer cargo. Upon completion of operations, the vessel will proceed in ballast to Rio de Janeiro for a scheduled bunkering call and to be supplied with approximately 400 MT of VLSFO. Kindly note that no additional operations are planned during her stay.

Based on current progress at Vitoria, the vessel's ETA at Rio de Janeiro is expected to be 09–10 January, always AGW, WP, UCE, and subject to the timely completion of discharge operations.

Kindly provide your most competitive proforma D/A based on the above. Vessel's particulars are listed below for your reference.

INMARSAT-C: 437392310
TEL: +30 211 234 8104
EMAIL: grajales@gtmailplus.com
Master: Captain Renzoli

As always, please be advised that we intend to remit funds in EUR currency. We assume this remains possible as per previous transactions; however, kindly confirm or advise otherwise.

Additionally, we would appreciate receiving any key information you consider essential regarding the aforementioned call. Kindly provide your full style address, including the name of the responsible person and after-office-hours contact details.

A prompt response would be highly appreciated to proceed with the appointment accordingly.

Best regards,
Thanasis Paraskevas
