Assunto: M/V BRYANT// SANTOS// UWI & DRUG SEARCH

Dear Agents,

Good Day,

Kindly note that M/V BRYANT is scheduled to call Santos, Brazil, with ETA today 12th, ETB 22nd, and ETC 24th Jan, for loading SBM to Asia.

In view of recent reports and heightened concerns regarding drug trafficking risks, we would like to implement appropriate preventive and security measures.

We kindly request your recommendations and arrangements, where applicable, for effective anti-drug trafficking precautions, including but not limited to:

- Employment of licensed shore watchmen / security guards
- Anti-drug inspections using sniffer dogs
- Underwater hull inspections prior to sailing (if possible, permitted at loading berth)
- Any additional local best-practice measures you deem necessary or advisable.

Please advise on the availability, required notice period, and estimated costs for each of the above measures, as well as any local regulations or port authority requirements relevant to drug prevention controls if any / if compulsory.

Awaiting yours with many thanks.

Best regards,
Lili Tassou
