RE: MV ANASTASIA - AT SANTOS, BRAZIL - LOADING OPS - S/BEANS - ETA 13.05.2026
==========

Dear Ms Miguel, Good day.

I hope my message finds you well.

We confirm the safe receipt of your message and instructions below. Many thanks.

Please note that the SSEC renewal should be arranged during her stay at the port of Santos.
Following your recommendations, we confirm that the cost of the SSEC renewal will be covered by the master on board.

As usual, K-9 inspection with sniffy dogs will be arranged by your office to be conducted prior to the vessel's departure from the berth.

Regarding the UWI, we would prefer this operation to be arranged at berth; however, we understand that the TIPLAM terminal does not allow this service at its berths.
We will revert later on with our final decision and approval for this operation.

No 5 - Sup/ndent's visit on board - We confirm that your recommendations were well received, and we will revert with a detailed list.

Many thanks in advance.

K.Regards,

Capt. Georgios Ieromnimon

Dear Capt. Georgios,
Good day!

Please find attached the requested PDA for the services mentioned. Below are the instructions for the services at Santos Port:

1. Supply of fresh stores : The PDA includes our clearance cost for delivery. Please be advised that, at this terminal, all store supply deliveries can only be carried out by boat.

2. Renewal of the vessel's SSEC :

Fyg, we’re experiencing many problems in arranging SSCEC renewals at Santos, as local Sanitary Authority is implementing a project at the port (which is currently in force), where all applications must be requested through the system, and at a certain advance. So, for the SSCEC at Santos, we’d like to draw your attention to the following:

1. All applications for SSCEC renewal at SANTOS must be done through the PSP system (Port Paperless System) before vessel’s berthing and a week in advance. So, every Monday, Sanitary Authority will start their schedule for inspections of the week;
2. The Agent must insert to the system, the exact day and period (morning or afternoon) in which the inspection is required/expected to be executed, according to

Sanitary Authority availability and considering only working days (FYG, Sanitary Authority at Santos does NOT work on Holydays and Weekends). After application being submitted thru the system, Sanitary Authority will confirm availability (or not) to attend. Case they have availability for the selected day/period, they will also confirm it on the system. So, at selected date/period, Sanitary Authority will analyze the process and will decide whether they will board vessel for physical inspection or will just remotely analyze documents produced by the vessel;
3. Just for the sake of good order, Sanitary Authority will only analyze the process on the select date, provided that payment of renewal tax is already affected by the agent. Case vessel is not berthed at the date/time scheduled, they will simply refuse to renew the SSCEC;
4. If the vessel berths and departs out of selected date and/or out of Sanitary Authority working time, it will not be possible to arrange the renewal at Santos.

Based on above, SSCEC will SSCEC renewal will be subjected to Sanitary Authority at Santos. Furthermore, please note that it will be necessary to pay in advance the SSCEC tax (once paid, said tax will not be reimbursed), in order to apply for SSCEC renewal through the system and select a date/period for the Sanitary Authority to analyze the process.

It is important to note that each Brazilian port has its own procedures for SSCEC renewals, and these instructions/procedures can be modified at any time without prior notice. Sultrade is closely monitoring updates and will keep you informed of any changes as soon as they arise.

3. K-9 inspection : Attached file PDA including the costs for K9.

4. UWI anti-drugs inspection at berth : Considering that the vessel will be berthing at Tiplam terminal, unfortunately it's not permitted to be carried out while the vessel is alongside at TIPLAM terminal. In this case, the service will have to be scheduled to take place at the anchorage area, after unberthing maneuver. Furthermore, if vessel unberths PM hours, it would be necessary to wait until next morning at anchorage to perform the UWI. Fyg, UWI anti-drugs at anchorage can only be performed during daylight and also it is always subjected to the weather/sea condition.

5. Sup/ndent's visit on board : Upon arrival in Brazil, at the airport immigration desk, he must declare that he is traveling on BUSINESS so that the correct entry code (102-03) is stamped in his passport. If he is mistakenly stamped as a tourist, we will be unable to obtain port entry clearance in Santos.

Nearest Airport : GRU (GUARULHOS / SÃO PAULO BRAZIL). Which is around 160KM fm Santos, normally, transit time is 2hrs or 5hrs on heavy traffic.
Technicians visitation at Santos port is allowed only at BERTH **(NOT allowed at anchorage area).**

If vessel delays her berthing, no outer roads permission is granted by the port authorities, strictly due to safety reasons.

It's important to highlight that each Brazilian port has its own interpretation on the Health Authority rules in force, meaning that all above instructions can be changed anytime without any pre advise. Sultrade is aware to keep you posted immediately in case of any further changes on the above instructions.

Furthermore, we highlight again that visit at the vessel must be done during Authorities Working time **(every day from 0900hrs lt to 2100hrs lt).**

Thank you and best regards.

MV ANASTASIA - AT SANTOS, BRAZIL - LOADING OPS - S/BEANS - ETA 13.05.2026
==========

Good day.

Please note that MV ANASTASIA is expected to arrive at the port of Santos for loading operations on 13.05.2026.

The owners plan to handle several operational matters during her stay, and we will share a detailed schedule shortly.

1. Supply of fresh stores.
2. Renewal of the vessel's SSEC (Please revert with the expected fees in advance for our reference)
3. K-9 inspection (Please revert with a proper quotation in advance for our reference)
4. UWI anti-drugs inspection at berth (Please revert with a proper quotation in advance for our reference)
5. Sup/ndent's visit on board (We will revert with details in due course)

Kindly note that t/chrtrs have appointed Messrs. Fertimport Shipping agency to act on their behalf.

Contact details as follows :

LOADPORT AGENTS

Josue Santos
Operations
Mobile: 55 13 99775-4961
operations-sts@fertimport.com.br

linkedin.com/company/fertimport-sa

We would appreciate instructing Messrs. Sultrade's local office in Santos to confirm their attendance and act on our behalf for the vessel's operational matters.

Many thanks in advance
