Dear Ismael,
Good day,

Yr input and feedback well received and noted with thanks.
For the sake of good order, kindly confirm that relevant arrangements will be scheduled during sub vsl's port stay at Paranagua.

Best regards,

Katerina Kontoleon

Dear Ms. Katerina Kontoleon,

Good day!

Thank you for your message below. Content duly noted. We will coordinate the removal of garbage and bilge water accordingly.

With all due respect, regarding the post factum allegation raised during the last call, we would like to draw your attention to the fact that the percentage of water content/density in the sludge is something that can be properly ascertained during the pump-out operation/on spot, enabling all parties involved to be promptly informed should the condition for free garbage removal not be met.

Kindly note that such clarification is made merely for the sake of good order and mutual understanding.

Best Regards

Sultrade Shipping Agency

Ismael Hajar

Dear Ismael,
Good day,

Yrs below duly noted and thank you for yr feedback.

With ref to C/P terms, kindly note that sludge removal is on Chrtrs' account and garbage/bilge removal on Owners' account.
Reg local regulation at Brazilian ports, pls be advised that similar info has been received from Chrtrs' side and during vsl's previous port calls at port of Paranagua, we have arranged garbage disposal thru Chrtrs' vendor bss on "free of charge". However, post factum, Chrtrs requested from us to settle the cost since sludge disposed during such port call had high water content/density. In view of this and generally as per company's policy, we prefer to arrange items under our account with owner's protective agent

T'fore, pls arrange garbage & bilge disposal at most convenient port (either Parangua ETA 16/05 or Santos ETA 18/05), ensuring that there will be no expected conflicts of interest of violation since Chrtrs' vendor will handle sludge removal at Paranagua.

Best regards,

Katerina Kontoleon

CC: MASTER OF MV NAVIOS VERDE
FM: SULTRADE SHIPPING AGENCY

Dear Ms. Katerina Kontoleon,

Good day!

We acknowledge receipt of your below message.

With regards to the garbage removal, kindly note that according to State Law n° 18.626/2015 (State of Paraná), which establishes rules for the removal of solid waste generated by vessels calling at ports located along the Paraná State coastline, including Paranaguá Port, the garbage removal is generally understood as being directly connected to the vessel's commercial employment by charterers and, therefore, for charterers' account, unless otherwise agreed under the relevant C/P terms.

Furthermore, we would like to point out that, as per local service providers' practice, **garbage removal may be carried out free of charge provided the vessel delivers a minimum of 20 m³ of sludge with a maximum water content of 40%.**

In case the vessel has no sludge to deliver, please consider USD 600.00 for removal of up to 200 kg of garbage, plus USD 1.50 per each additional kilo.

The cost for bilge water removal is USD 90.00 per cbm. Therefore, you may consider approximately USD 360.00 for removal of 40cbm.

Best Regards,

Ismael Hajar

Dear Armando and All,
Good day,

Further to below appointment and in view of sub vsl's upcoming port call at Parangua (ETA 16/05) and at Santos (ETA 18/05), kindly advise feasibility and relevant quotation for below categories:

Bilge water : 40 cbm

Garbage : total 4.22 cbm, categories as follow
A – PLASTIC = 1.2 m3
B - FOODWASTE = 0.10m3
C – DOMESTIC = 1.2 m3
D – COOKING OIL = 0.02 m3
F - OPERATIONAL WASTE = 2.00m3
I - ELECTRONIC WASTE = 0.10m3

FYI, kindly note that Chrtrs have already arranged sludge disposal at port of Paranagua.
Awaiting yrs the soonest possible.

Best regards,

Katerina Kontoleon
