Dear Capt. Anna,
Good day!

Further to our last, please find attached the PDA with estimated costs for Pecem port as well as launch boat prices table for your perusal/reference.

With regards to Sanitary Inspection, we want to refer to the **Pest Control and Air Conditioning certificates** (which are no longer mandatory):

These two certificates are **NO LONGER COMPULSORY/MANDATORY.** The issuing of said certificates is ruled by RDC 10 that was revised on Feb 09th 2012, where concerning its articles 61 and 80, covering control of air conditioning systems and articles 79 and 80, related to the control of synanthropic fauna specimens harmful to health. These certificates are no longer mandatory, provided vessels produce reports, spreadsheets of maintenance on board **(Samples attached)**, duly signed by C/E and Master, to the boarding Officer, during the Sanitary visit/inspection.

Requirements contained on above mentioned Articles of the rule, were changed, from COMPULSORY PRODUCTION TO THE SANITARY AUTHORITY, to a more flexible presentation of vessel's sanitary condition, stating that (on a free translation basis of the rule):

"Art. 61: Shall be presented, when required by competent sanitary authority, Worksheets concerning maintenance, operation, cleaning and disinfection of the air conditioning equipment."
"Art. 80: All ships shall keep an Integrated Pest-Management Program updated, ensuring that appropriate measures, prevention and pest control."

So, vessel must have proper documents/spreadsheets issued **(as per Samples attached)** and have them produced to the visiting Officer during Sanitary inspections on board, duly signed/stamped by Master and C/E. Case vessel has available on board the procedures as well as records into vessel's Logbooks, have these also promptly available to be produced to the Inspecting Officer. All produced documents must be of recent issue, demonstrating that the cleaning, sanitizing, and disinfecting is carried out on board as a routine and within a maximum of 6 months prior the inspection. Anyhow, case the Sanitary Officer identifies any trace of insects' infestation/contamination/etc.., during the visit/inspection, then vessel will be required to hire a qualified local company for fumigation/cleaning and issuance of certificates, during her port stay.

Important:
If Sanitary Inspectors do not accept vessels' controls and request for fumigation, any and all requirements must be **officially entered into TISEM (Termo de Inspeção Sanitária em Embarcações – Sanitary Inspection Term for Vessels)**, demonstrating the reasons for the unsatisfactory sanitary conditions of the vessels. The issuance of TISEM is covered by Brazilian Regulations, must be provided by the visiting Sanitary Officers, and they cannot refuse to issue this document, so we recommend MST not to accept verbal orders.

Thank you for your attention on this matter and we remain at your disposal for any further information you may require.

Dear All, Good day

Kindly note that the subject vessel on time charter is in laden condition and presently underway proceeding to Pecem for discharging operations.
However, we are checking possibility to conduct Owners' matters, as follows:

1. Launch service costs
2. Pest Control Cert costs
3. Agency OPA fee

Your prompt response will be appreciated.

Thank you.

Best Regards
Capt.Anna Livanou / Fleet Operator
