Kindly be informed that we have 3 cleaners on board of MV TR Rossa , ETA Paranagua on July 31st, which we would like to disembark at Paranagua roads, together with surveyors' boat, no assistance will be required at airport.

They are South African, holding biometric passport and seaman book which you will find attached.

Pls advise if you can assist with:

I appreciate to receive a cost breakdown and what is included in the costs.

We are currently checking the flights for them, kindly adv latest Holds inspection, ETB/D to coordinate it.
